Re: Feasibility Study for the Allied Paper Landfill, Operable Unit 01, of the Allied Paper, Inc./Portage Creek/Kalamazoo River Superfund Site

Dear Ms. Kryak:

Thank you for your letter of March 24, 2010, wherein Millennium Holdings, LLC requested a 90-day extension to prepare a revised Feasibility Study (FS) report for the above referenced Superfund Site. The United States Environmental Protection Agency can not grant MHLCC an extension of 90-days for completion of the FS. In light of the current bankruptcy proceeding *In re Lyondell Chemical Company* (Case No. 09-10023), by this letter EPA agrees to extend the time for completion of a final FS report to May 10, 2010. EPA's agreement to extend the time period is contingent upon the final bankruptcy settlement agreement between Lyondell Chemical Company, et al and the United States of America to include an additional \$50,000.00 designated to EPA in the Custodial Trust Environmental Cost Account for the Allied Paper Mill Transferred Real Property.

If you have any questions about this letter, please contact me at (312) 353-8983.

Sincerely,

Timothy Prendiville  
Acting Chief  
Remedial Response Section #2
